# PROJECT MANAGEMENT APP

YELURI SAHITHI NAVYA

Phase 6: User Interface Development

Goal: Design a user-friendly UI with Lightning tools and components.

• Build the Project Management App using Lightning App Builder.

• Add tabs for Projects, Tasks, and Resources for easy navigation.

• Customize home page with a dashboard of project KPIs.

• Design record pages with task lists and related project info.

• Create utility bar shortcuts for quick task creation.

• Develop LWC components for searching and filtering tasks.

• Enable navigation service for seamless record access.

• Wire Apex methods to fetch project data into LWC.

• Test responsiveness and accessibility across devices.

App Launcher

Service — Manage customer service with accounts, contacts, cases, and more	**PM Project Management**	**Marketing CRM Classic** — Track sales and marketing efforts with CRM objects
Community — Salesforce CRM Communities	**Certifications App** — App for course and certification	**Salesforce Chatter** — The Salesforce Chatter social network, including profiles and feeds
